Summary

I am an active student in various fields at Haydarpaşa High School. I am actively involved in the FRC, MUN, Academy, and Informatics clubs at Haydarpaşa High School, participating in events and developing projects. I enjoy helping and supporting others.

Experience

Haydarpasa Panthers   August 2023 - Present
Software Developer   Istanbul
🔗 https://team9231.com/

Haydarpasa Panthers is a robotic team that competes at the FIRST Robotics Competition. I am involved in developing the robot's software. We are also working on social responsibility projects related to software.

Haydarpasa IT Club   January 2023 - Present
Software Development Mentor   Istanbul

I gave HTML, CSS, and JavaScript training to the students and currently mentoring them. Also, every year, our team develops "Haydartech" which is a technology summit.

Education

Haydarpaşa High School   September 2021 - July 2026
🔗 https://haydarpasa.k12.tr/

I am studying at Haydarpaşa High School, one of the oldest high schools in Turkey, and I am involved in various projects.

Projects

Series and Film Tracker
🔗 https://zaratracker.vercel.app/

The aim of the project is to facilitate the tracking of TV series and movies. Although there were similar applications, they had their own issues. They didn't suffice to meet my needs.

Haydarpasa Academy Website
🔗 https://academy.haydarpasa.k12.tr/

Translator
🔗 https://github.com/dukeofsoftware/translator-berapp

This project is a translation application. It includes features like translation using the OpenAI API, improving language skills with various quizzes, correcting grammar errors, and performing translations.

NFT Application Design Challange
🔗 https://github.com/dukeofsoftware/nft-challange

The aim in this project is to quickly convert the desired design into a pixel-perfect website.

Real Time AI Chat APP
